
CLEARWATER AND AREA COMMUNITY WILDFIRE ROUNDTABLE

Chris McGourlick, RPF

Operations Manager

FESBC - WHO WE ARE

- A semi-autonomous agency of government
- Reporting to the Minister of Forests through the Office of the Chief Forester
- Proponent driven – we rely on eligible parties to submit applications to complete eligible activities
- Reduce the risk of wildfire around communities
- To utilize fibre that would otherwise be burnt
- And where possible both

FESBC – OUR HISTORY

- Since inception, FESBC has funded 179 Wildfire Risk Reduction Projects throughout the province
- Value approaching \$87 Million
- Eligible projects include Planning, manual and mechanical treatments, utilizing fibre, hazard abatement
- Operate on provincial crown land
- We complement the District led WRR program where Land manager support is provided

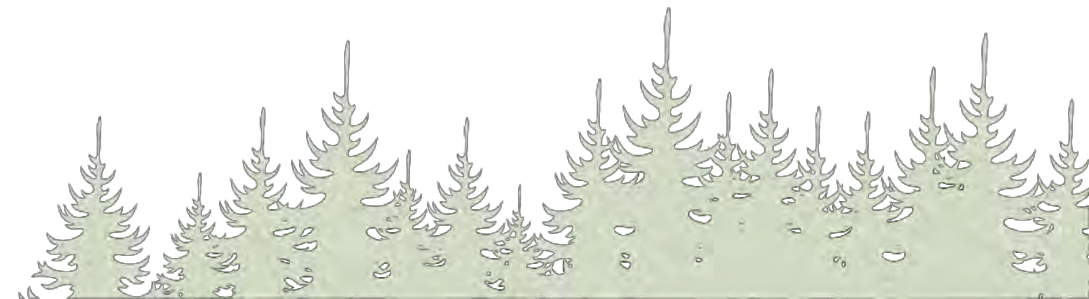

FESBC – OUR FUTURE

- 2024 budget provided \$20 million per year for the next 3 years.
- 50% of the funds for WRR
- 50% of funds for fibre utilization
- Short term priorities:
 - To fund shelf ready projects for completion by March 2025
 - To create new prescriptions and complete planning to start 1500 ha/yr of treatments starting April 1, 2025

MAKING AN APPLICATION

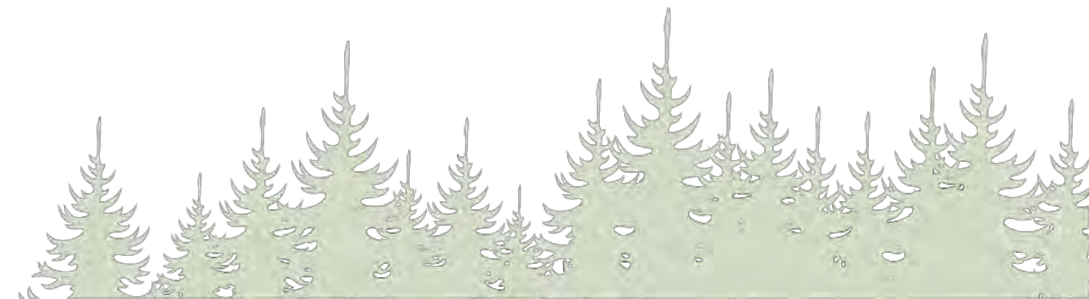

- Visit the FESBC website, www.fesbc.ca
- Read the WRR guidebook
- Phone an Operations Manager
- Seek Land Manager support for the project
- Fill out an application in the Portal
