SECTION 2: Experience, interest and qualifications

Why are you interested in becoming a Community Representative on the SWC?

As a Community Representative, one of your key roles will be to facilitate a two-way information exchange between the SWC and the Shuswap community: relaying the decisions and activities of the SWC out to the community and communicating community input to the SWC for consideration. What community groups or associations do you belong to, if any? How will you share information about the SWC with people in the Shuswap? How will you seek and gather community input and perspectives?

What is your educational background and/or experience in relation to the mandate of the Shuswap Watershed Council?

Please tell us about your previous committee experience (workplace, community service and/or volunteering). What was the name of the committee(s), the purpose, and how long did you serve?

I have read the Community Representative position description on the SWC website, and other specified materials. I understand what's expected of a Community Representative on the SWC.
